

SEMESTER – 1
Data Analysis REPORT

COMPUTER SCIENCE
AND
ITS BRANCHES

PREFACE

This report presents an analysis of the Grade Point Averages (GPAs) across different branches of Computer Science for the first semester RVR&JC College of Engineering. The study encompasses various streams within Computer Science, including Computer Science Engineering (CSE), Data Science (CSD), Artificial Intelligence/Machine Learning (CSM), Internet of Things (IOT), Computer Science and Business Systems (CSBS), and Information Technology (IT). The purpose of this report is to provide an objective assessment of academic performance and identify potential variations among these branches.

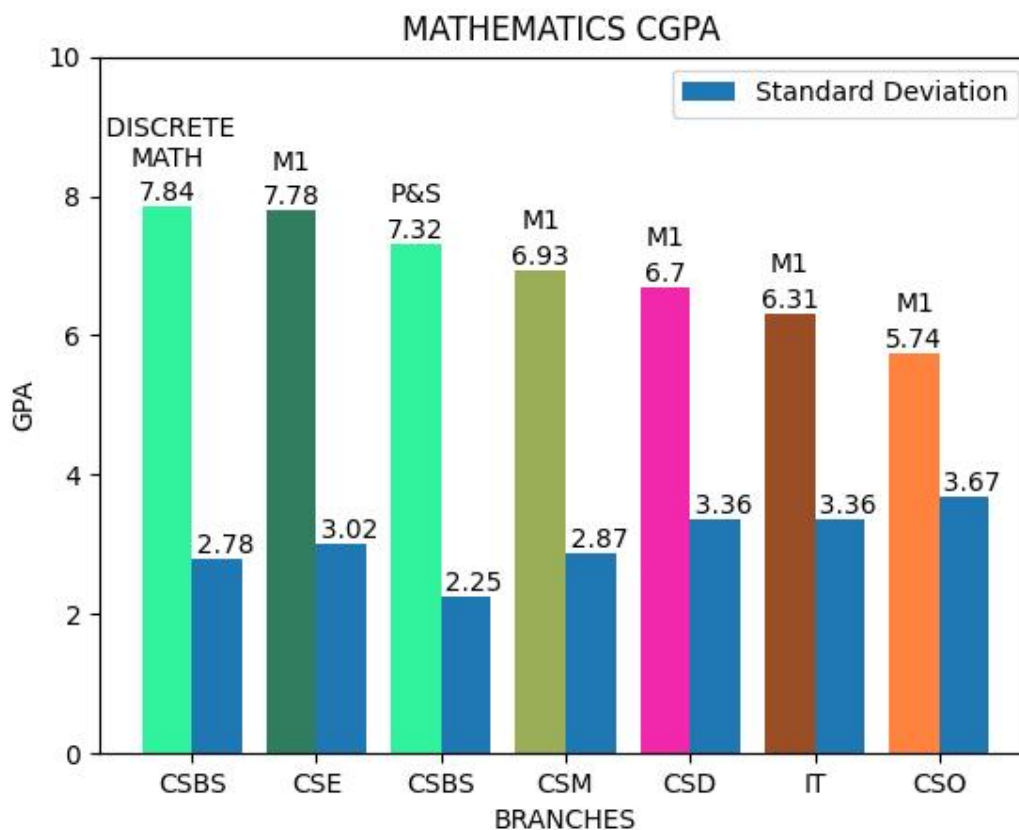

It is crucial to emphasize that this analysis has been conducted with utmost fairness and without any discrimination towards any specific branch. The goal is to present an unbiased representation of the GPAs achieved in each branch, allowing for a comprehensive comparison.

Each branch is represented in a bar graph, with distinct colour codes assigned by the college, aiding visual differentiation and facilitating easier interpretation of the data. The data for this analysis has been collected from the official college web site and is available in the accompanying GitHub repository (<https://github.com/dharmateja2810>) for reference and transparency.

This report serves as a valuable resource for students, faculty, and administrators, providing insights into the academic performance across various branches of Computer Science, RVR&JC College of Engineering. It is essential to note that this analysis should be considered in conjunction with other factors such as curriculum design, course difficulty, and individual student capabilities.

The subsequent sections of this report delve into the detailed analysis and interpretation of the GPA data, aiming to highlight key findings and trends across the different branches of Computer Science.

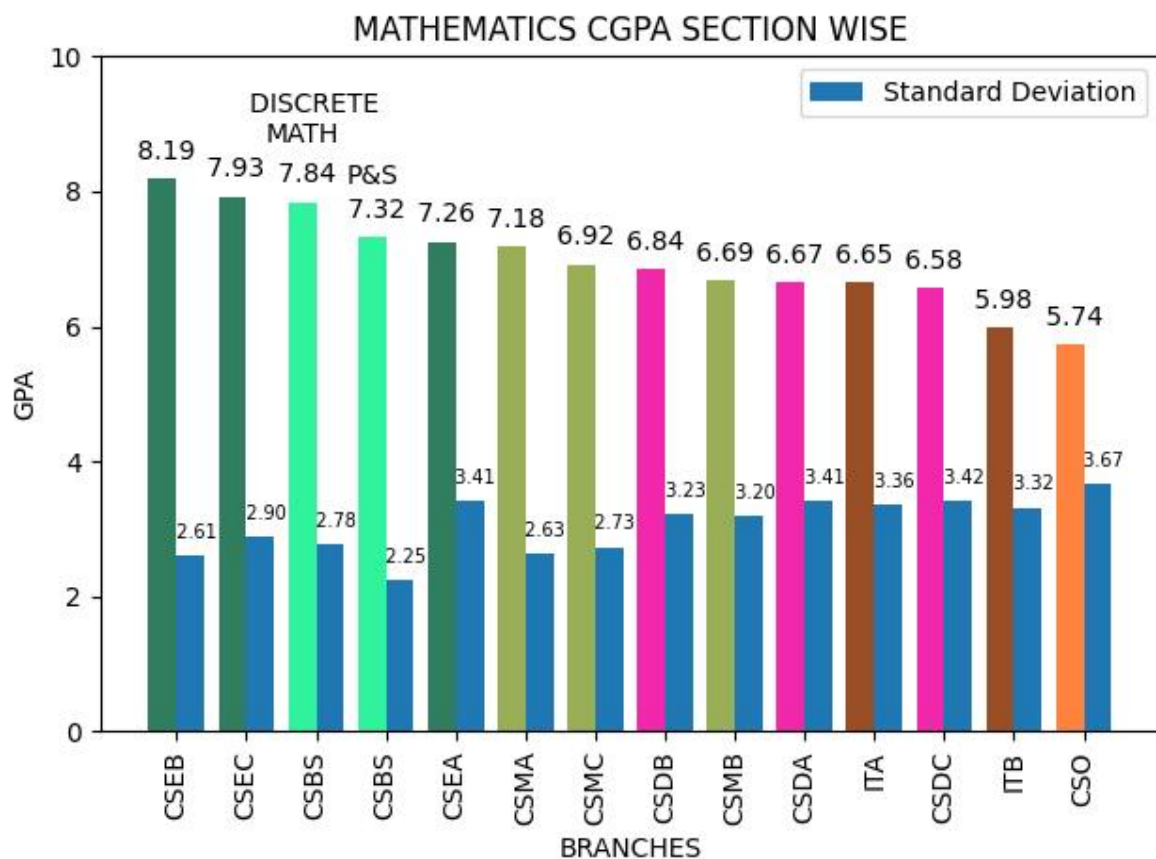

1. MATHEMATICS CGPA BRANCH WISE COMPARISION

The coloured Bars represent the Mean CGPA of each Branch with blue coloured bars representing STANDARD DEVIATION.

CSBS, with subjects including Discrete Mathematics, Probability, and Statistics, achieved the highest performance. Conversely, IOT showed the lowest performance.

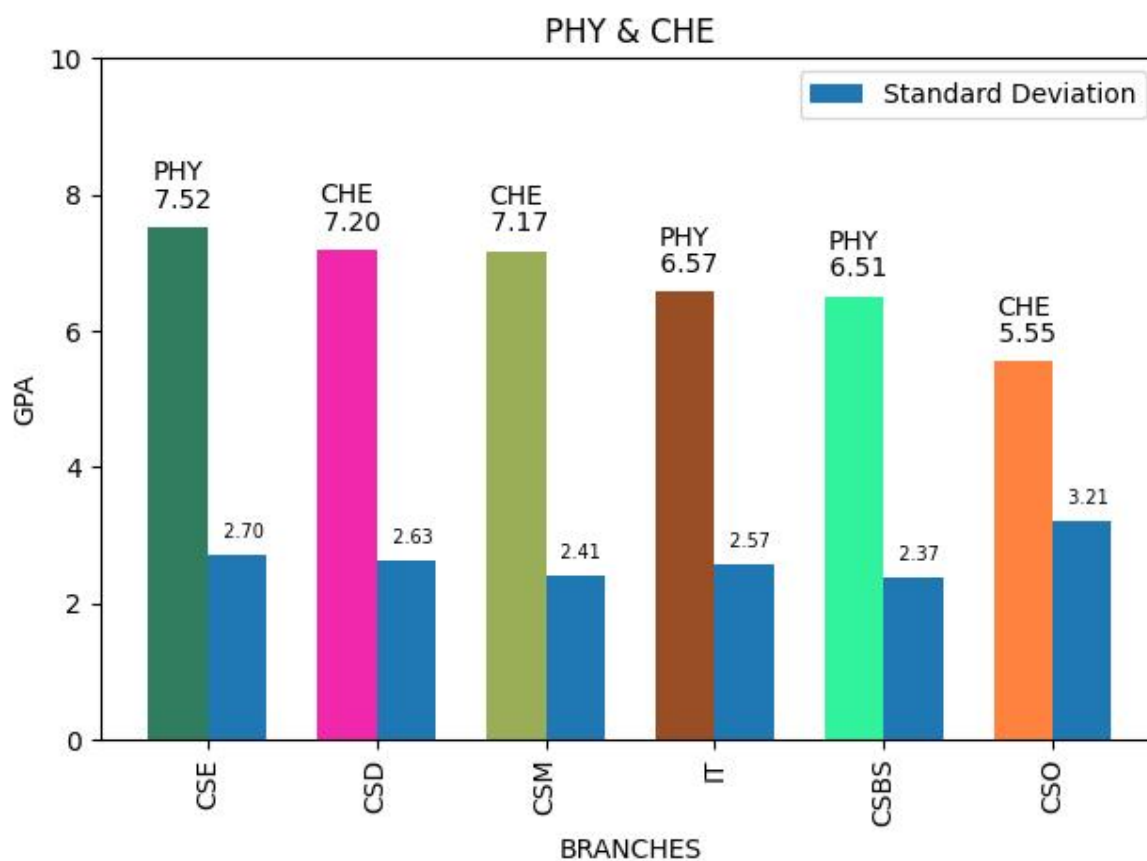

2. MATHEMATICS CGPA SECTION WISE COMPARISON

When compared Section wise CSEB AND CSEC were able to beat CSBS with 8.19 and 7.93 as their mean CGPA for CSEB and CSEC respectively.

IOT performance was least among the branches with a high SD.

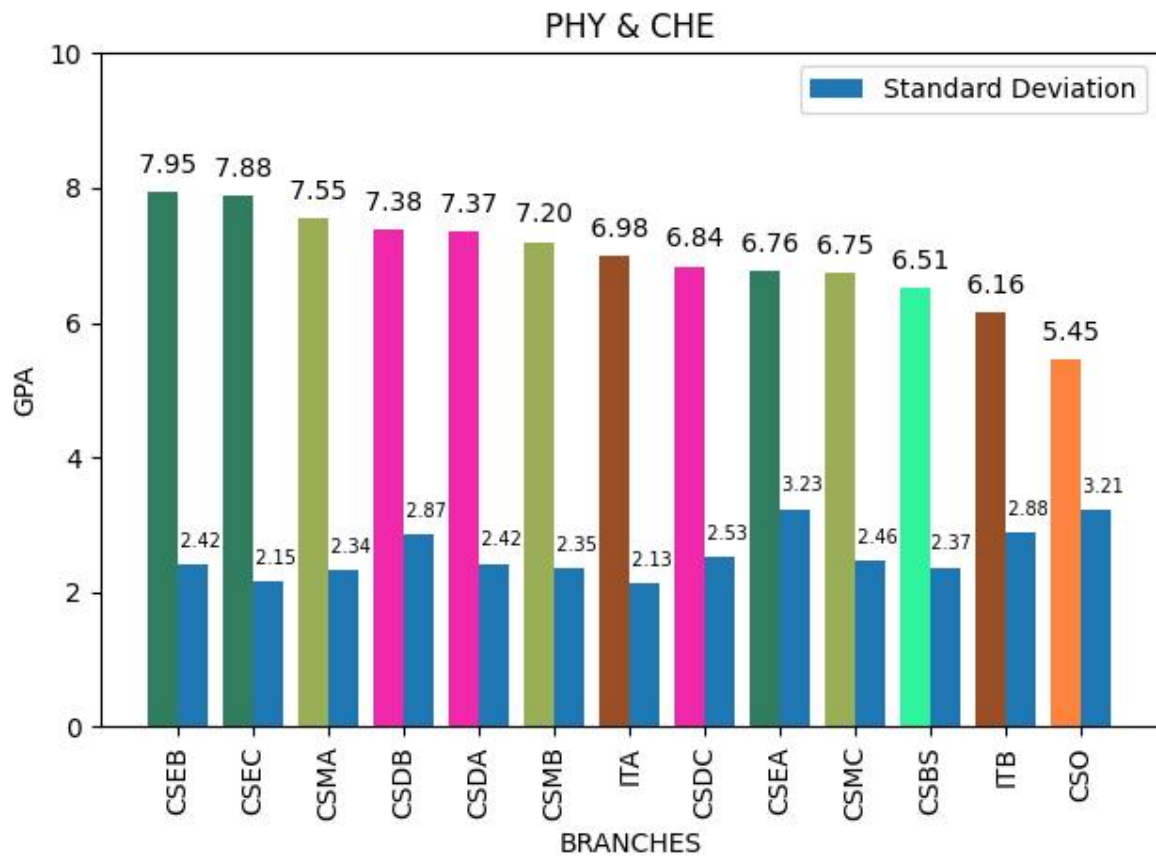

3. PHYSICS AND CHEMISTRY BRANCH WISE COMPARISION

PHYSICS Was included in CSE , CSBS , IT Curriculum whereas **CHEMISTRY** was included in CSD, CSM, IOT Curriculum.

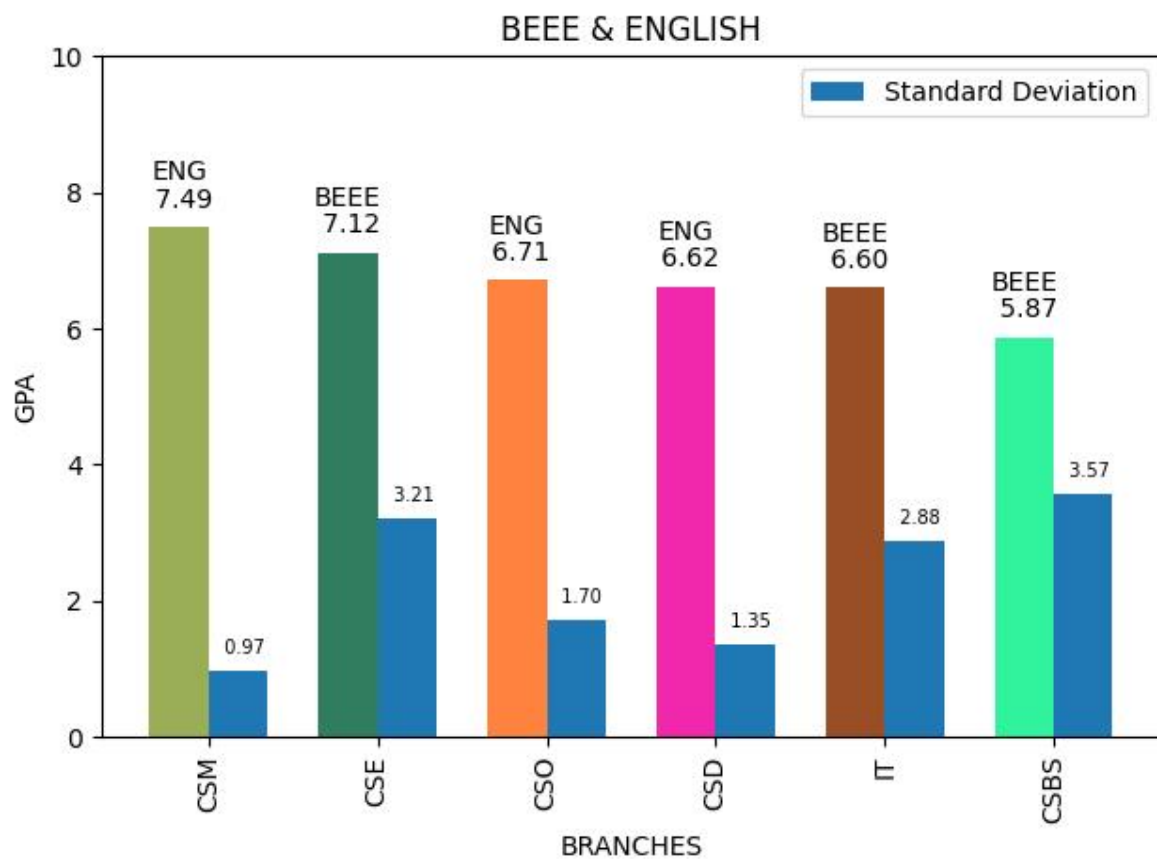

Again, CSE got the highest Mean GPA ,7.52 with 2.70 as Standard Deviation , Data Science secured the 2nd place with 7.20 as Mean GPA and 2.63 Standard Deviation.

4. PHYSICS AND CHEMISTRY SECTION WISE COMPARISON

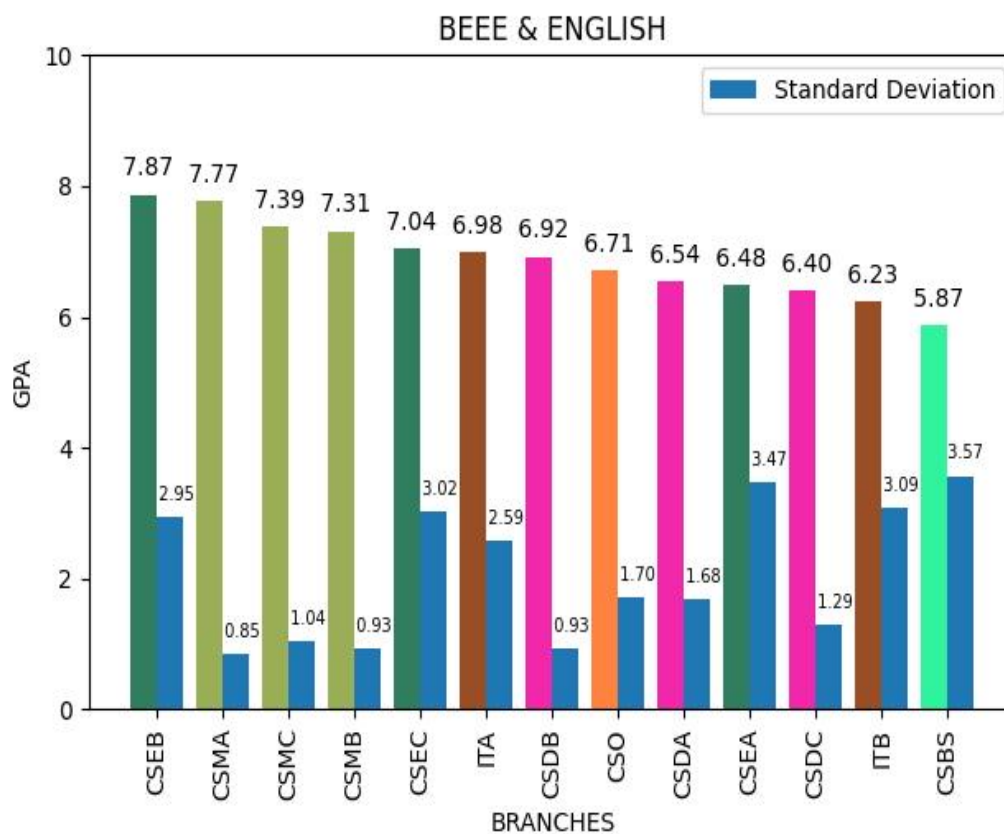

CSE B and CSE C maintained their top positions, with CSE B leading the pack. In a section-wise comparison, CSM A surpassed Data Science. Notably, IOT exhibited a significantly higher standard deviation compared to the other sections.

5.BEEE AND ENGLISH BRANCH WISE COMPARISON

In a notable shift, CSM surpassed CSE to secure the first position, showcasing strong performance. Meanwhile, IOT claimed the third position. However, CSBS struggled to perform well in BEEE.

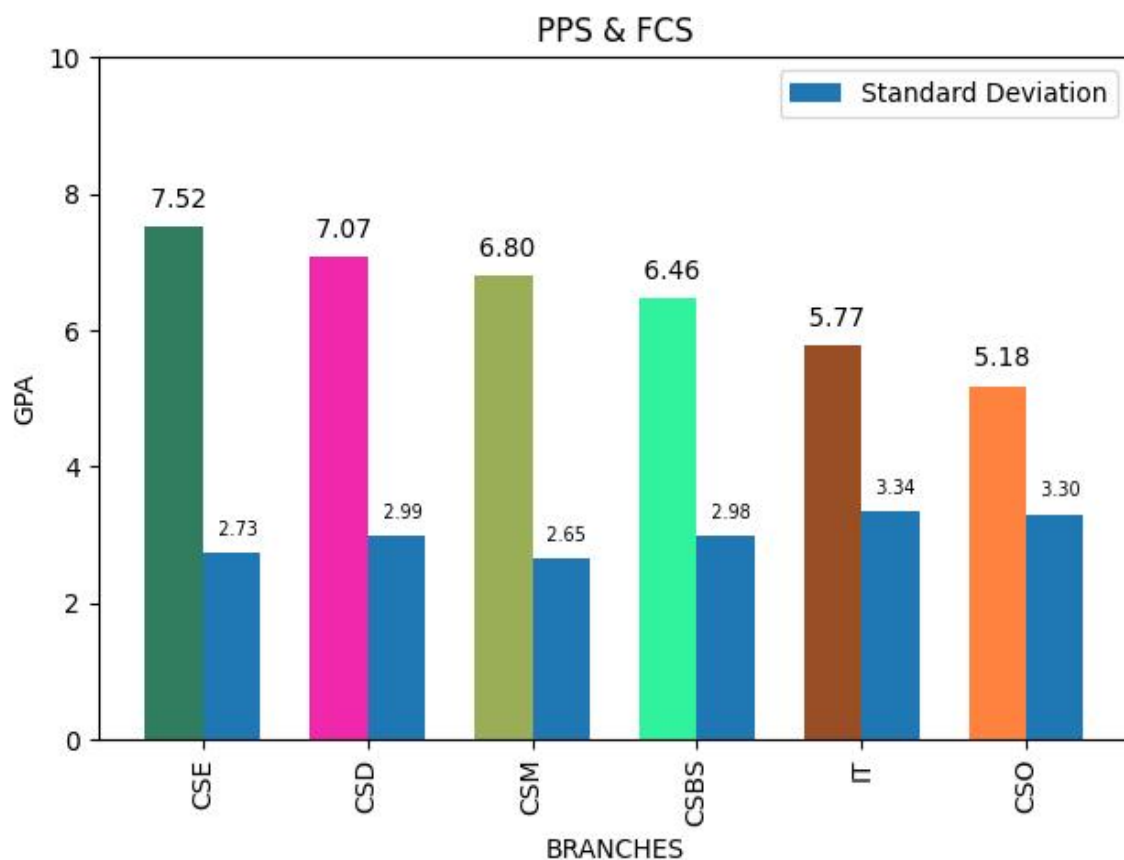

6.BEEE AND ENGLISH SECTION WISE COMPARISON

In Section wise comparison CSE B reclaimed its position while IT A and CSD B surpassed IOT.

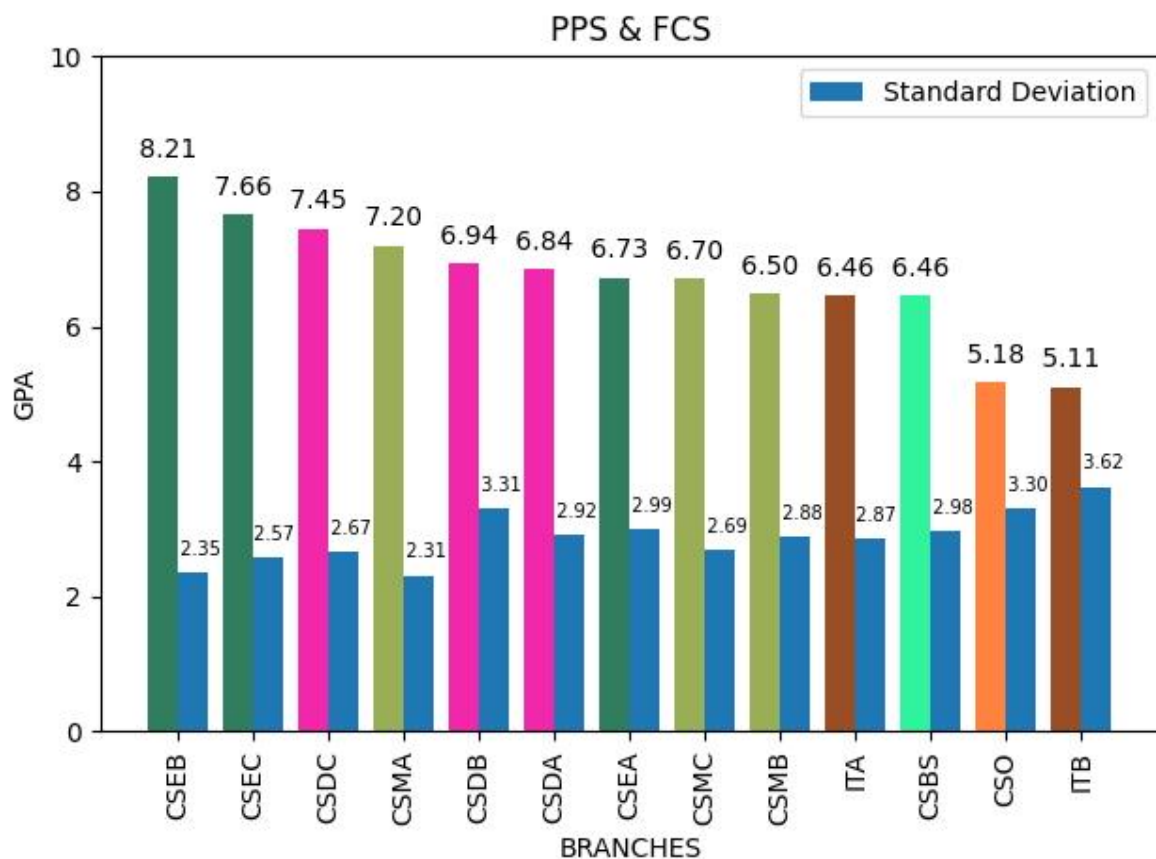

However, CSE A is having a higher Standard deviation compared to CSM A, CSM B , CSM C. which shows strong performance by CSM

7. PPS AND FCS BRANCH WISE COMPARISON

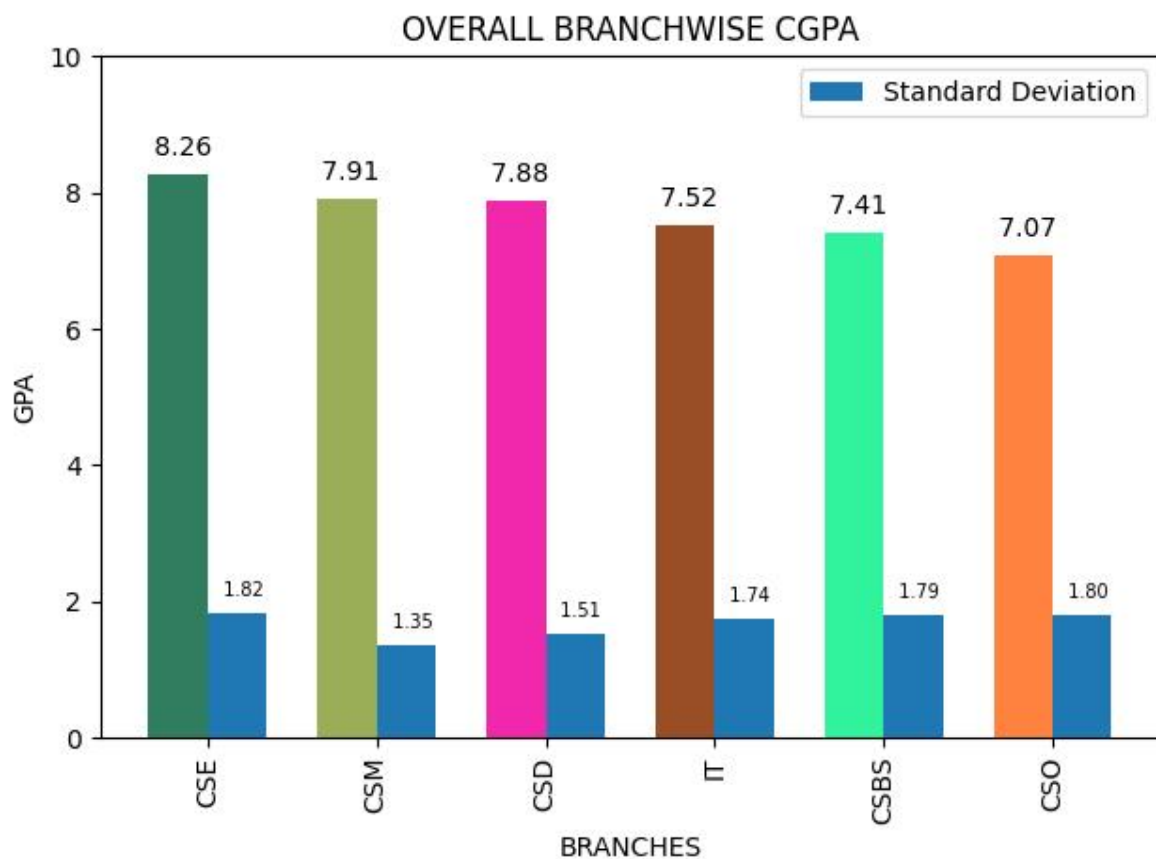

CSE once again demonstrated the best performance, maintaining its top position. CSD secured the second place, showing a commendable performance. However, IOT continued to face challenges, struggling to perform well in comparison to other Branches.

8. PPS AND FCS SECTION WISE COMPARISON

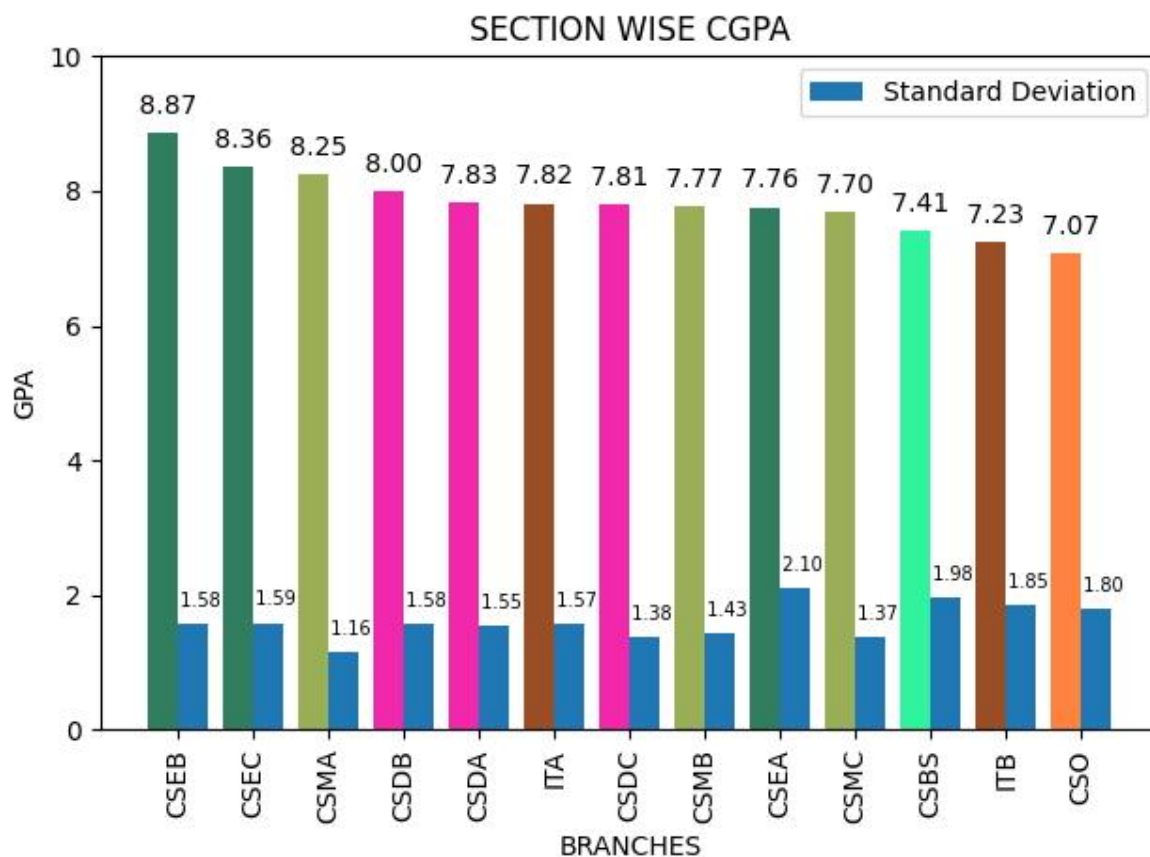

In the section-wise comparison, IT B performed the poorest among all sections. On the other hand, CSM A outperformed both CSD B and CSD A, surpassing their performance. Interestingly, CSD C performed better than CSM A, showcasing a higher level of achievement in this particular comparison.

9.OVERALL CGPA BRANCH WISE COMPARISION

CSE, CSM, and CSD secured the first, second, and third positions, respectively, demonstrating their strong performance. However, IOT continued to struggle, facing challenges in achieving a competitive position.

10. OVERALL CGPA SECTION WISE COMPARISON

In the section-wise comparison, only CSM A outperformed CSD B and CSD A, while CSE A did not perform as well as CSE B and CSE C. Overall, the CSE department displayed the strongest performance. Conversely, IOT faced significant challenges, struggling the most among the sections. Additionally, IT A performed better than IT B, showcasing relatively stronger performance within the IT department.

The overall CGPA was calculated along with Lab subjects. F grade was given a -1 mark for Better comparison while the other grade points remained the same.

BRANCH WISE RANKINGS

DATA SCIENCE - CSD

RANK	REG.NO	GPA	NAME
1	Y22CD168	9.846	UNNAM GOWTHAMI LAKSHMI
2	Y22CD083	9.692	KOTU VASANTHA MEGHANA
3	Y22CD111	9.692	NAGABHYRU SRI SAI BHARGAV
